III. State Law requires that you be given the following information:

Caution Pesticides are Toxic Chemicals. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that, based on existing scientific evidence, there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized.

If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, contact your physician or poison control center (see below) and your pest control company immediately. If rodenticide ingestion occurs, you may experience symptoms of mild shock and/or bleeding.

For further information, contact any of the following: Proper Care Pest Control (209)341-1610; for Health Questions the County Health Department(see below); for Application Information the County Agricultural Commissioner (see below) and for Regulatory Information The Structural Pest Control Board at 2005 Evergreen Street, Suite 1500 Sacramento, CA 95815 (916) 561-8700.
